
Goal: GOVERNMENTAL EXCELLENCE AND EFFECTIVENESS***Desired Community Condition(s)***

Competent, well-trained motivated employees contribute to the achievement of City goals and objectives.

Program Strategy: UNEMPLOYMENT COMPENSATION

47504

Represent the City's interest at unemployment compensation cases and appeals as well as in tracking associated claims cost.

Department: HUMAN RESOURCES***Service Activities***

Unemployment Compensation Fund

Strategy Purpose and Description

The purpose of this program strategy:

- ☐ administer a federal and state mandated unemployment program on behalf of the City of Albuquerque entities,
- ☐ assure that only valid unemployment claims are processed against the City account maintained by the Department of Labor
- ☐ Provide representation at unemployment appeals.
- ☐ Provide training seminars to City managers.

The primary customers of the program strategy are employing entities of the City of Albuquerque.

The City of Albuquerque is on an actual cost of claims premium payment to the Department of Labor, therefore valid claims and a strong defense against invalid claims is necessary. Using contract representation that is currently used by the State Risk Management Division provides some economies and a more comprehensive employer strategy.

Changes and Key Initiatives

Develop a system that reconciles with the providers data.

Input Measure (\$000's)

2001	705	705 RISK MANAGEMENT FUND	163
2002	705	705 RISK MANAGEMENT FUND	288
2003	705	705 RISK MANAGEMENT FUND	355
2004	705	705 RISK MANAGEMENT FUND	404
2005	705	705 RISK MANAGEMENT FUND	518
2006	705	705 RISK MANAGEMENT FUND	558

<i>Strategy Outcome</i>	<i>Measure</i>	<i>Year</i>	<i>Project</i>	<i>Mid Year</i>	<i>Actual</i>	<i>Notes</i>
Decreased cost of claims resulting from reviews for claims validity; improved education regarding necessary evidential material for appeals; and focused contracted appeals representation.	% REDUCTION IN COST OF CLAIMS	2001	tbd		-4.1%	

		2002	-18%	see notes		<p><i>In early FY 02 there was a down turn in the economy with increased unemployment claims beginning in September 2001. Quarterly claim costs rose from \$20,000 to \$60,000. the City was impacted by secondar employer claims as employees exhausted the primary employer benefits. Also during FY 02 temporary employees were laid off which will impact unemployment claims.</i></p>
		2003		see notes		<p><i>During FY 02, the economy took a severe down turn, particularly after September 11. Claims for unemployment jumped from approximately \$20,000 per quarter to \$80,000 per quarter as of March 2002. As the trend continued, claims rose to \$80,000 per quarter. A large number of these claims are attributed to secondary employer claims, as former employees of the City exhausted benefits from their most recent primary employer, the claim costs are charge to the secondary employer, the City. Also, due to the budget reduction, temporary employees were laid off, and unemployment benefits were paid to these individuals.</i></p>
		2004		see notes	see notes	<p><i>The economy has not recovered,. Therefore claims for unemployment have continued to increase, from approximately \$20,000 per quarter to \$80,000 per quarter. A large number of these claims are attributed to secondary employer claims, as former employees of the City exhausted benefits from their most recent primary employer, the claim costs are charge to the secondary employer, the City. Also, due to the reduction in force of temporary employee (layoff) have increased.</i></p>
		2005		see notes	see notes	<p><i>Impact still being assessed</i></p>
Provide training to departments for the production of evidential material for appeals within the required timeline.	REDUCTION IN COST OF CLAIMS	2006	(\$20,000)			

Goal: GOVERNMENTAL EXCELLENCE AND EFFECTIVENESS**Parent Program Strategy: UNEMPLOYMENT COMPENSATION****Department: HUMAN RESOURCES****Service Activity: Unemployment Compensation Fund****4792000****Service Activity Purpose and Description**

Quarterly estimated payments are made to the Department of Labor for unemployment claims that might be processed against the City of Albuquerque entity account. Differences (over or under) are adjusted at the end of the quarter from the estimated to the actual cost of claims processed on behalf of former City of Albuquerque employees. Contracted representation at appeals hearings on behalf of City entities is being done. Actual claims paid are being tracked and monitored by the contractor. Coordination with the Department of Labor, the Contractor and within the City is being done by a staff resource.

Changes and Key Initiatives

Continued auditing of benefit charges to the City account.

Continued use of a contractor for representation at appeals hearings.
